

CONSTRUCTION NOTICE

The City and County have hired McNamara Construction to install a sidewalk on the south side of Wentworth from 15th Avenue to the round-about this summer. A project layout map of the improvements area is provided on the back side of this newsletter. Work is expected to begin on during the week of June 10th. The Contractor will begin by mobilizing equipment on the site and setting up traffic control in the beginning of the week. Wentworth Avenue will be open at all times in both directions but temporary shoulder closures and shifting of traffic can be expected.

Wentworth Avenue will be open at all times in both directions but temporary shoulder closures and shifting of traffic can be expected.

Construction crews will be excavating for the trail and installing base material throughout the week. Hydrant relocation and storm sewer work are scheduled to begin at the end of the week. If a water shutdown is necessary to perform the hydrant relocation work, you will be notified ahead of the shutdown through a separate construction notice.

The project construction inspector, Rollyn Peterson, is available by phone at 952-270-0174 to answer any questions you may have regarding construction.

SAFETY FIRST

With construction getting ready to begin, we want to remind you to use caution around the work site during the construction. Large and small construction equipment may be working in the area during the sidewalk installation and it can be a powerful draw to curious children (and onlookers of all ages). Your assistance in reminding children to stay clear of construction equipment is helpful in maintaining a safe environment. Your patience and cooperation during this construction is appreciated.

PROJECT CONTACTS & INFORMATION

- For construction related questions or concerns, during the hours the Contractor is working, please call the project representatives:
 - Rollyn Peterson (Project Construction Inspector) at (952) 270-0174
 - Lee Elfering, City Engineer, at (651) 554-3210 (Monday-Friday, 8 – 4:30)
 - After hours or on weekends you can leave a message to receive a follow-up call on the next business day at (651) 554-3210
 - Emergency after work hours, call 911
- For general project related questions, call (651) 554-3210 (Monday – Friday, 8 – 4:30)
- The City’s website has information regarding the project. Southstpaul.org – Engineering Department – Street & Construction Projects – Wentworth Avenue Sidewalk
